Text:

An Algerian Researcher

Yasmine Belkaid is an Algerian researcher. She was born in 1968, in Algiers where she was raised and did her primary, middle and secondary studies. In 1986, she passed the baccalaureate with an excellent grade and joined Bab Ezzouar University. There she got the Bachelor's and the Master's degree in Biochemistry in 1990 and 1993. Three years later, she got a PhD from Pasteur Institute (France), in which her research focused on Leshmania infections.

Following graduate school, Yasmine Belkaid moved to the United States for a postdoctoral at NIAID's Laboratory. In 2008, she became adjunct Professor at the University of Pennsylvania.

Dr. Belkaid is best known for her work on Microbiome and its role in inflammatory diseases. She won several awards such as Lurie Prize in 2019.
